Profile

As a junior Fullstack developer from ITI, I am passionate about web development, coding, and problem-solving. I have gained valuable experience through intensive training programs at ITI, specializing in software fundamentals and the MEARN stack. I am currently seeking freelance web development projects on platforms like Khamsat and Mostaqil to apply my expertise in building scalable and responsive websites. My aim is to deliver robust solutions that enhance user engagement and meet client objectives while continuously improving my design and coding skills.

Work Experience

External Instructor, (ITI) 12/2024 - present

- Conducting lectures and workshops on web development technologies.

Wordpress Developer, (lamsatech) 5/2024 - 9/2024
